## **Fake Miscarriage Paperwork:**

**Himmler's Secret War** Martin A. Allen, 2005 With a combination of personal interviews including several with leading Nazis and with Himmler's daughter Gudrun Burwitz and the use of previously unseen documents Allen presents the whole Nazi high command in a fresh light demonstrating how Hitler was often manipulated and sometimes sidelined But perhaps of equal interest is the inside story of secret operations conducted by the Political Warfare Executive empowered by Churchill to fight a war with weapons of destabilisation and misinformation in support of the open military campaigns Allen portrays Himmler's ever more desperate efforts to secretly negotiate his political survival with the Allies as Hitler's war machine collapses This book has one more revelation to make as Allen rewrites history with his account of the true circumstances of Himmler's dramatic death **BOOK JACKET**

**The Victoria Climbié Inquiry** Great Britain. Department of Health, Lord Laming, Great Britain. Home Office, 2003-01-01 This is the official report of the independent inquiry into the events leading up to the death of Victoria Climbié an eight year old child who died in hospital in February 2000 of injuries sustained after months of abuse The report by Lord Laming finds that the death represents a gross failure of the system of public agencies involved to protect vulnerable children from deliberate harm and this failure is primarily due to widespread organisational malaise The agencies involved were under funded inadequately staffed and often showed a lack of even basic good practice However the key issue is one of lack of leadership and accountability shown by senior level management of the agencies involved rather than just a structural or staffing problem The legislative framework for child protection is judged to be basically sound the problem lies more with its implementation The report contains 108 recommendations for fundamental changes to the way social care healthcare and police child protection services are organised and managed at national and local level in England in order to establish a clear line of accountability in the provision of services for vulnerable children and the support of families These include i the creation of a Children and Families Board within the government to be chaired by a minister of Cabinet rank ii the creation of a National Agency for Children and Families with responsibility to advise the Board on policies that affect the well being of children and families and the discretion to conduct serious case reviews and iii the creation of a Management Board and a Committee at local authority level involving senior management representatives Other recommendations relate to improvements in the exchange of information within and between agencies the feasibility of a national children's database to record any contact a child has with any key protection service service funding issues staff training and supervision

Decriminalising Abortion in the UK Sheldon, Sally, Wellings, Kaye, 2020-03-23 Available Open Access under CC BY NC licence The public and parliamentary debate about UK abortion law reform is often diverted away from key moral and political questions by disputes regarding basic questions of fact And all too often claims of scientific fact are ideologically driven But what effect would decriminalisation be likely to have on women's health What would be the impact on the incidence of abortions Would decriminalisation equate to deregulation sweeping away necessary restrictions on dangerous or malicious conduct With each chapter written by leading experts in the fields of medicine law reproductive health and social science this book offers a concise and authoritative account of the evidence regarding the likely impact of decriminalisation of abortion in the UK
